Treasurers Report: - M. Vaughan informed the meeting that the trophy spend had saved 20% on the previous year.
Last years outstanding sponsorship had now been paid with the exception of Rileys. A meeting had been arranged for the following week.
In conclusion the league's accounts are healthy.

Prize Presentation: - It was generally agreed that the DJ and his music selection were poor. After collecting trophies many people left. It was also agreed that having the presentation six weeks after the end of the season might be a problem and the date should be brought nearer. A. Grainger put forward an alternative trophy supplier that could save the league around £600. This would be investigated and discussed at a future committee meeting.

Website: - C. Poulton has been given all the access information from C. White and has got full control of the website.
Carl hopes to include a diary page, ranking points and to be able to post results online. He also expects to be able to get the fixtures on the site well in advance of the start of season.

C. Poulton was asked if it would be possible to use text and picture messaging to send match results in. CP would set this up for a trial during the following season.
